

TOM UMBERG
STATE SENATE, 34TH DISTRICT

As a Federal Prosecutor I had a 100% conviction rate — against rapists, thieves, and gang members. When President Clinton asked me to serve our nation as deputy Drug Czar, I led our attack on foreign drug cartels. I proudly served our nation as member of the U.S. Army and Reserve for over 28 years.

But when the politicians in Sacramento raised our taxes... and cut 30% of the special funds to battle meth dealers, cut police, cut education... and then voted to give \$50 million in tax breaks to Hollywood movie producers and tax breaks to horse breeders, I got angry.

I went to Sacramento to fight the politicians who are out of touch and out of control.

I'm making progress. California's Teachers support me because I've restored education funding. Cal-Tax named me the only Democrat in the state legislature with a 100% anti-tax record because I'm working to lower your taxes. And California's Police Chiefs made me their "Legislator of the Year" because of my work against sexual predators.

I will keep fighting against corruption in Sacramento and unethical politicians who secretly funnel money to themselves.

I will keep fighting the oil companies to bring down gasoline prices and to stop the politicians from giving away our money to the energy companies.

I will keep fighting to roll back community college fees and restore funding for education.

I will keep fighting to make health care affordable and accessible for everyone.

I'd be honored to have your vote.
